

Brainstorming & Idea Prioritization

Date	15 March 2026
Team ID	
Project Name	Rising Waters
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Kakedu Hareesh	Flood prediction using Machine Learning	Artificial Intelligence	
2	Kakedu Hareesh	Early warning system with weather analysis	Disaster Management	
3	Kakedu Hareesh	Real-time weather API integration	API Integration	
4	Kakedu Hareesh	SMS and Email flood alert notifications	Notification System	
5	Kakedu Hareesh	GIS map visualization of flood-prone areas	Mapping & Visualization	
6	Kakedu Hareesh	IoT sensor-based real-time flood monitoring	IoT	

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Machine Learning-based Flood Prediction using a Decision Tree model	High	High	1	Yes
2	Real-time Weather API and Alert Notification System	Medium	High	2	No (Future Enhancement)
3	GIS Mapping and IoT-based Flood Monitoring	Medium	Medium	3	No (Future Enhancement)
