Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Project Planning	Daily	Personal Notes / VS Code	Self	Plan daily development tasks
2	Development & Coding	Daily	VS Code	Self	Implement project modules and features
3	Model Development	As Required	Jupyter Notebook / Python	Self	Train and evaluate the Decision Tree model
4	Testing & Debugging	Daily	Flask, Browser	Self	Test the application and fix issues
5	Documentation	Weekly	Microsoft Word	Self	Prepare project reports and documentation
6	Final Review	Before Submission	Local System	Self	Verify project functionality and prepare for submission

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Collecting and preparing the dataset	Cleaned and preprocessed the historical weather data.
2	Integrating the ML model with Flask	Loaded the trained Decision Tree model using Joblib and tested predictions.
3	Debugging application errors	Identified issues through testing and fixed them step by step.
